

### 316 Stainless Steel Silhouette Cleat

Find a huge selection of 316 Stainless Steel Silhouette Cleat from China at POWER MARINE. We have been specialized in marine hardware for more than 25 years. Our product is made of 316 stainless steel, which has good corrosion resistance. We can provide high quality products and competitive prices, and we look forward to becoming your long-term partner in China. Welcome to contact us.

### 316 Stainless Steel Silhouette Cleat

#### Product Introduction

Find a huge selection of 316 Stainless Steel Silhouette Cleat from China at POWER MARINE. The Boat Cleat is to provide a secure and reliable anchoring point for ropes, lines, and cables. 316 Stainless Steel Silhouette Cleat has a longer service life in seawater, ultraviolet light and humid environments. The 316 Stainless Steel Silhouette Cleat helps the rope to achieve a fixed effect when in use. We can provide a variety of sizes, choose according to the diameter of the anchor rope.

#### Product Parameter (Specification)

Product name	316 Stainless Steel Silhouette Cleat
Specification available	Multiple sizes
Standards that follow to	ISO 9001, CE, TUV, CSS, SGS.
Samples available	Yes.
Packing method	Bubble bag+Wooden carton
Production lead time	10-15 days for a 20ft container, 20-25 days for a 40ft container.
Warranty time	Support returns and exchanges

### Product Feature And Application

316 Stainless Steel Silhouette Cleat is a marine hardware accessory used to secure ropes or ropes on boats, docks, or other vessels. Boat Cleat is made of high-quality stainless steel, known for its durability and corrosion resistance. The cleat is designed with a sleek, streamlined profile that not only serves its functional purpose but also adds aesthetic appeal to the overall appearance of the boat. 316 Stainless Steel Silhouette Cleat typically have low-profile bases that can be easily installed onto boat or dock surfaces. It will have multiple anchor points or corners around which the rope or line can be wrapped and secured. The number of anchor points can vary depending on the size and model of the locking plate. Stainless steel construction ensures the cleats can withstand harsh marine environments, including exposure to salt water and other elements. It is rust- and corrosion-resistant, extending the life and functionality of the cleats. Marine 316 Stainless Steel Silhouette Cleats are a durable, corrosion-resistant, and beautiful accessory that provide a safe, convenient way to secure ropes or lines to boats and docks.

## Product Details

The boat 316 Stainless Steel Silhouette Cleat is a type of cleat specifically designed for secure fastening of ropes or lines on boats.

**Material:** The 316 Stainless Steel Silhouette Cleat is made from high-quality stainless steel. Stainless steel is chosen for its durability, strength, and corrosion resistance, making it ideal for marine environments.

**Design:** The cleat features a sleek and minimalistic design, giving it a streamlined and modern appearance. It is commonly available in a silhouette or slim profile design, hence its name.

**Size:** Boat Cleats come in various sizes or lengths to accommodate different rope thicknesses and provide secure tying points based on the boat's needs.

**Installation:** The cleat is typically designed for surface mounting on the boat's deck or other appropriate surfaces. It may come with pre-drilled holes or mounting hardware for easy and secure installation.

**Load Capacity:** The 316 Stainless Steel Silhouette Cleat is designed to withstand high loads and provide reliable hold for mooring lines, ensuring the boat remains securely in place.

**Finish:** The cleat is usually available in a polished or brushed finish, further enhancing its aesthetic appeal and offering resistance to tarnishing and scratching.

**Corrosion Resistance:** Stainless steel is highly resistant to corrosion, allowing the cleat to withstand exposure to saltwater, moisture, and other environmental elements without rusting or deteriorating.

**Easy Rope Tie-Off:** The cleat's design typically includes angled or curved horns, providing an efficient and secure method for tying off ropes or lines. This helps prevent slipping or accidental release of the lines.

**Versatility:** 316 Stainless Steel Silhouette Cleat are suitable for use on various types of boats, such as yachts, sailboats, powerboats, and smaller watercraft, providing a reliable mooring solution.

**Durability:** Stainless steel construction ensures the cleat's ability to withstand
