

Stainless Steel 3 Spoke Black Pu Foam

Steering Wheel

POWER MARINE is a professional leader China Stainless Steel 3 Spoke Black Pu Foam Steering Wheel manufacturer with high quality and reasonable price. Welcome to contact us. We follow the quality of rest

assured that the price of conscience, dedicated service. We have been specialized in Stainless Steel 3 Spoke Black Pu Foam Steering Wheel for many years. We not only have the best-selling sizes and styles in the market, we also focus on the development and upgrading of new styles. We look forward to becoming your long-term partner in China.

Stainless Steel 3 Spoke Black Pu Foam Steering Wheel

Product Introduction

POWER MARINE is a leading China Stainless Steel 3 Spoke Black Pu Foam Steering Wheel manufacturer, supplier and exporter. Welcome to contact us. The Stainless Steel material on the surface can play a good anti-slip role in use, and the matching grip makes it easy to control the steering wheel with one hand. We can add your unique logo as a brand promotion.

Product Parameter (Specification)

Product name	Stainless Steel 3 Spoke Black Pu Foam Steering Wheel
Specification available	Multiple sizes
Standards that follow to	ISO 9001, CE, TUV, CSS, SGS.
Samples available	Yes.
Packing method	Bubble bag+Wooden carton
Production lead time	10-15 days for a 20ft container, 20-25 days for a 40ft

Shandong Power Industry and Trade Co., Ltd.

Address: Chengyang District, Qingdao, Shandong Province, China

Tel: +86-15865772126

Product Feature And Application

The history of the Stainless Steel 3 Spoke Black Pu Foam Steering Wheel can be traced back to the evolution of ship steering systems. Steering wheels have always been an important part of ships, allowing captains and operators to navigate and maneuver the vessel efficiently. In the past, boat steering wheels were often made of wood or other materials. However, with advances in technology and the need for more durable, corrosion-resistant materials in marine environments, Stainless Steel 3 Spoke Black Pu Foam Steering Wheel are becoming increasingly popular. Stainless steel has excellent resistance to rust, corrosion and weathering, making it ideal for marine applications. The marine steering wheel is made of stainless steel to ensure its longevity and durability in all weather conditions and prolonged use. Black PU foam grips on the wheels add comfort and extra grip, reducing hand fatigue during long periods of steering. The foam also provides a tactile and non-slip surface, ensuring safe operation even when wet. The 3-spoke design is a common configuration for marine steering wheels and provides even load distribution on the wheel. This design choice also ensures better maneuverability as it allows for easy, smooth steering movements. Adding a knob or spinner to the center hub of your steering wheel can make steering faster and easier, especially in tight spaces or tight turns. Often referred to as a "suicide spinner," this knob is designed for one-handed steering, providing more control and less effort. Overall, the Stainless Steel 3 Spoke Black Pu Foam Steering Wheel combines material technology advancements with ergonomic design features to enhance the steering experience on board. The history of these steering wheels illustrates boaters' ongoing efforts to improve functionality, durability and comfort and contribute to the advancement of boat steering systems.

Product Details

The following are the features of the Stainless Steel 3 Spoke Black Pu Foam Steering Wheel:

Material: Made of high-quality marine grade stainless steel, ensuring excellent corrosion resistance and durability in harsh marine environments.

Design: The steering wheel features a 3-spoke configuration that provides balanced load distribution and smooth steering movement.

Grip: Stainless Steel 3 Spoke Black Pu Foam Steering Wheel adopts black

PU foam grip with a comfortable and non-slip surface. Foam grips also reduce hand fatigue when turning for long periods of time.

Weatherproof: The materials used in the construction are weatherproof, allowing the steering wheel to withstand the effects of salt water, sunlight, and other harsh weather conditions.

Knobs/Spinners: The center hub of your steering wheel may be equipped with a knob or spinner to allow for easier and faster steering. This feature allows for better control, especially in tight spaces or when making sharp turns.

UNIVERSAL: The steering wheel has a universal design and is suitable for most standard marine steering systems.

Easy to install: Stainless Steel 3 Spoke Black Pu Foam Steering Wheel is designed for easy installation, with a standard mounting system for quick installation and removal.

Stylish Appearance: The black PU foam grip combined with the stainless steel design gives the steering wheel a stylish and modern appearance, enhancing the aesthetics of the rudder.

Overall, the Stainless Steel 3 Spoke Black Pu Foam Steering Wheel provides the durability, comfort, and functionality needed for efficient steering on your boat. It combines quality materials, ergonomic design and ease of use to enhance the boating experience.

Loading & Shipment

Thanks to superior quality, we have been establishing a close & long business partner relationship with the customers from more than 30 countries, and we've gotten so many positive feedback regarding the quality.
